

Capital Project Update

Date: June 19, 2018
From: Frank Ferraro
Subject: Capital Project Update – June 19, 2018

On June 25th, the summer's work will be in full swing. POD I (Elementary Library Classrooms), POD K (Elementary Gym and Classrooms) POD F (Middle School Classrooms) will be the first areas to be abated. Next week, the IT staff will be removing smartboards and other electronic and IT equipment from these areas. If you have any questions about the process when you return to school email me or stop by my office. Before you leave for vacation please remove any items from refrigerators.

Thank you for your help and have a great summer.
